

STILL THE KING

And has it finally come to this?
Love is a captive for a kiss.
Now, suffering has claimed the throne.
Now, capriciously, it reigns alone.

But love is still the king, he said.
Love is still the king instead.

Justice delayed, but not denied.
Esoteric end in deicide.
As love is slain by its own hand,
Wrongs are undone, and I understand that

Love is still the king, he said.
Love is still the king instead.

In the end, is love a king at all, at all?
